Tile and stone should last forever... The specification process should NOT!

LATICRETE offers a revolutionary new resource tool that is sure to change the way design and specification professionals specify tile and stone installation systems.

The web based LATICRETE® Architectural Guidebook empowers design and specification professionals to create custom specifications based on industry standards for over 100 types of installations with just a few clicks of a mouse, literally, in seconds.

BREATHE EASIER – AND SAFER

A complete system of low VOC tile and stone installation products

LATICRETE is the first and only manufacturer of tile and stone installation materials to earn and offer the GREENGUARD™ Environmental Institute's (GEI) certification. Based on criteria used by the U.S. EPA, OSHA and the U.S. Green Building Council's LEED-CI program, the GREENGUARD certification provides you the proof and assurance that the specified LATICRETE Systems meet appropriate indoor air quality standards for volatile organic compounds (VOC's), including formaldehyde.
