

LATICRETE® Stone Solutions Program has a Comprehensive Array of Products

LATAPOXY® 310 Cordless Mixer

LATAPOXY® 310 Cordless Mixer is a dual component cordless mixer that quickly and easily dispenses LATAPOXY 310 Stone Adhesive onto ceramic tile, porcelain and stone veneers. Hundreds of square feet (square meters) can be installed per day with less effort and greater success with this system.

LATICRETE® 255 MultiMax Multipurpose Thin-Set Mortar

This versatile adhesive provides unmatched non-sag performance and adjustability on walls and can be used as a medium bed mortar for up to 3/4" (18 mm) thick applications without any slump or sag. Reinforced with Kevlar® for superior strength.

Inhibits the growth of stain causing mold and mildew with Microban® antimicrobial protection.

LATICRETE 9235 Waterproofing Membrane

IAPMO and ICC accepted for shower pans and as a primary waterproofing membrane for any area subjected to continuous submersion such as pools, spas and roman tubs. Stone can be directly bonded to this thin, load-bearing membrane for either floors and walls on interior or exterior applications.

Inhibits the growth of stain causing mold and mildew with Microban® antimicrobial protection.

LATICRETE SpectraLOCK™ PRO Grout

As easy to install as cement grout yet with the performance and stain resistance of epoxy, SpectraLOCK™ PRO provides vibrant and consistent color, is easy to maintain and always cleans to the original color. Meets ANSI A118.3.

Inhibits the growth of stain causing mold and mildew with Microban® antimicrobial protection.

LATICRETE Latasil Tile and Stone Sealant

A high-performance 100% silicone sealant for treating joints on interior or exterior applications that won't stain stone or tile.

Inhibits the growth of stain causing mold and mildew with Microban® antimicrobial protection.

LATICRETE® Stone Solutions products are designed to increase your productivity, provide for an easier installation and increase your profits. LATICRETE 255 MultiMax Multipurpose Thin-Set Mortar combines 3 mortars in one. It can be used for thin-bed, medium-bed and vertical installations.

Exclusive Kevlar® component provides non-sag performance even on large format stone.

Ideal for small wall tile, provides adjustability, non-sag performance and resists mold and mildew.

A component of the 10 Year Systems Warranty* MultiMax is equipped with Microban®, is certified by GREENGUARD™ for low VOC's and is rated ASTM C627 "Extra Heavy" by the TCA for commercial installations.

LATAPOXY® 310 Stone Adhesive and the Cordless Mixer provide unmatched speed for permanent interior or exterior vertical stone installations. Install 300-500 ft² per day of stone with ease and accuracy. No cutting kerfs, drilling or mechanical clipping needed.

Exclusive cordless mixer applies the desired amount of LATAPOXY® 310 Stone Adhesive without any hand mixing — just squeeze the trigger!

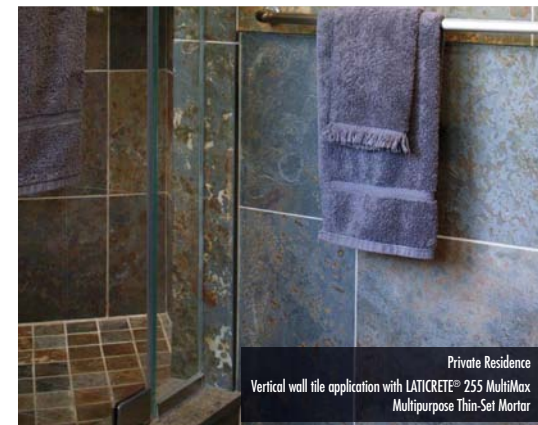

Quickly and easily adjust stones, LATAPOXY 310 will not shrink or move — set it and forget it!

Strong permanent durable bond will not deteriorate over time and is shock resistant.

Take on that next stone cladding job without the headaches associated with complicated traditional labor intensive methods like thin-set, plaster and wire or mechanical anchors. You can triple your productivity, reduce labor costs and work easier with LATAPOXY 310. It is building code approved for cladding applications by the ICC and backed by a 10 Year System Warranty*. LATAPOXY 310 Stone Adhesive has been used around the world on both interior and exterior cladding projects.

Private Residence
Vertical wall tile application with LATICRETE® 255 MultiMax Multipurpose Thin-Set Mortar

LATICRETE offers a wide range of proven solutions of interior or exterior stone installations for both residential and commercial applications.
