# LATICRETE® Stone Solutions System

LATICRETE INTERNATIONAL, INC.  
One LATICRETE Park North, Bethany, CT 06524-3423 USA • 800.243.4788 203.393.0010 [www.laticrete.com](http://www.laticrete.com)

The use of natural stone in both interior and exterior applications continues to rise at dramatic rates. Stone use is up more than 40% since 2000! The increased use of stone combined with increasingly difficult applications requires high performing dependable systems.

LATICRETE offers a wide range of proven solutions of interior or exterior stone installations for both residential and commercial applications. The LATICRETE® System will work in these challenging environments without fail, at an affordable cost and with your needs in mind. Crack suppression, waterproofing and bond strength are among the most important performance criteria for stone installations. This is why LATICRETE has created the Stone Solutions System and partnered with Daltile, the leader in natural stone to bring you the best combination of quality, selection and cost.

The LATICRETE System is designed to increase your productivity and increase your profits while protecting your name and reputation.

Backed by a comprehensive 10 Year Systems Warranty (DS 230.12) plus certified by GREENGUARD for low VOC (volatile organic compounds) the LATICRETE System offers the highest performance and peace of mind available.

Put your trust in the leader with 50 years of experience – LATICRETE. Visit [www.laticrete.com](http://www.laticrete.com) for more information.

## LATICRETE HAS A COMPREHENSIVE ARRAY OF PRODUCTS FOR VIRTUALLY ANY STONE APPLICATION OR CHALLENGE. KEY PRODUCTS ARE:

LATICRETE® 255 MultiMax Multipurpose Thin-Set Mortar	This versatile adhesive provides unmatched non-sag performance and adjustability on walls and can be used as a medium bed mortar for up to 3/4" (18 mm) thick applications without any slump or sag. Reinforced with Kevlar® for superior strength. Contains Microban®. Inhibits the growth of stain causing mold and mildew in the mortar with Microban® antimicrobial protection.
LATICRETE 9235 Waterproofing Membrane	IAPMO and ICC accepted for shower pans and as a primary waterproofing membrane for any area subjected to continuous submersion such as pools, spas and roman tubs. Stone can be directly bonded to this thin, load-bearing membrane for either floors and walls on interior or exterior applications.
LATICRETE SpectraLOCK™ PRO Grout	As easy to install as cement grout, yet with the performance and stain resistance of epoxy, SpectraLOCK PRO provides vibrant and consistent color, is easy to maintain and always cleans to the original color. Meets ANSI A118.3
LATAPOXY® 310 Stone Adhesive	A two-component, high strength construction epoxy adhesive for spot bonding large format tile and stone on vertical surfaces, for either interior or approved exterior applications. Dramatically increase your productivity and reduce labor costs. Code approved by the ICC.
