LATICRETE Technical Design Manual for Mass Transit Applications

June 21, 2010: LATICRETE, a global leader in the manufacturing of innovative systems for the installation of tile and stone, has published free a new comprehensive technical manual to help design professionals assess the correct installation materials for the specification of tile, stone or glass hard surfaces in mass transit facilities and associated structures. The LATICRETE Mass Transit Ceramic Tile and Stone Technical Design Manual offers recommendations and guidelines for airports, train stations, subway stations, bus terminals and more, available for quick and easy downloads at www.laticrete.com/architects/technical_design_manuals.aspx.

LATICRETE, with over half a century dedicated to the research and development of tile and stone installation products and systems, has provided the expertise of its technical services division to create the latest in a series of installation manuals as another free service to the industry. The LATICRETE Mass Transit Technical Design Manual features the most up to date information and technology for architects, engineers, construction professionals, tile contractors and manufacturers of tile, stone, glass and allied surfaces in high-trafficked transportation centers.

Recognizing the important role of airports, train stations, subways and other mass transit facilities play in introducing millions of visitors to each community they serve, LATICRETE experts have published the Mass Transit Ceramic Tile and Stone Technical Design Manual in 10 sections covering the initial floor and wall structural considerations through substrate preparation, waterproofing and crack isolation protection, installation materials and methods, to the maintenance and protection of the finished installation.

Innovative Tile and Stone Installation Systems

LATICRETE International, Inc. is a family owned business dedicated to innovative, high quality tile and stone installation systems. Based in the USA, the 50-plus year old company is one of the world's leading manufacturers in its field. It's well known brands LATICRETE®, LATAPOXY® and SpectraLOCK® are manufactured and sold worldwide. USA /Canada: 1.800.243.4788, outside USA: +1.203.393.0010, www.laticrete.com.
