LATICRETE Architectural Specialists Pass CDT Exam Davis, Meyers now Certified Construction Document Technologist

For Immediate Release: LATICRETE, a global leader in the manufacturing of innovative systems for the installation of ceramic tile and stone, has announced that Kirby Davis and David Meyers, both regional senior architectural specialist for LATICRETE, have passed the Construction Specifications Institute's (CSI) exam and are now certified Construction Document Technologist (CDT).

CSI credentials are recognized throughout the industry as evidence of a proven level of education, knowledge and experience in construction documents. Credentials from the CSI demonstrate professional commitment, credibility and reliability to employers, colleagues and clients. By passing the CDT, Davis and Meyers demonstrated their knowledge in the following three categories: the construction process, contractual relationships, and the use of construction documents. The CDT is a comprehensive program for anyone who writes, interprets, enforces, or manages construction documents. Davis and Meyers now represent LATICRETE in a select, highly respected group of construction professionals, alongside architects, contractors, contract administrators, specifiers and manufacturers representatives from around the country.

Innovative Tile and Stone Installation Systems
